

# 530U & 533U Dump Body

*A continued tradition  
since the early 1900's*

## Tough & Versatile

The Galion 530U's lighter crossmember-less construction makes it an excellent choice for over-the highway aggregate hauling. Ideal for construction, batching work, and spreading stone, sand, gravel and other aggregates. Designed for medium to heavy duty work, The 530U series bodies utilize high tensile steel throughout for best resistance to abrasion. The Galion 533U is a stainless copy of the 530U.
